Terroir

Our 98 acres vineyard is located over 3.600 feet above sea level. In a region of desert climate, dry and sunny, with 320 days of sun exposure a year and big temperature amplitude (over 16°C). Alluvial and sandy soils. Drip irrigation with water from the melted snow of the Andes Mountains.

All these exceptional conditions allow a perfect ripening of the grapes providing our wines with vivid colors, good acidity and a good maturity of the tannins.
